W E L C O M E

Welcome to The Last, we hope you enjoy your time with us.

In creating our wine list, we have sought to provide our customers with an approachable, appealing collection of wines to enjoy either by the glass or by the bottle.

We hope you will find several options which represent 'safe hands', grape varietals or regions you may be familiar with and know what to expect.

Elsewhere, we believe you may be intrigued to try something new, to push the boundaries in terms of unfamiliar wines or geographical selections. We partner with a small number of wine merchants and sometimes source our wines directly from the vineyards themselves in order to secure the quality and diversification we seek.

Our intention is to seasonally rotate our wines to complement changes to our menu and produce.

We hope that whatever you select, you will find high quality and good value, two of the core characteristics which help to make The Last a Norwich institution.

With regards to vintages, if you would like clarification prior to making your selection, do ask our waiting team who will be more than happy to help. On a similar note, many of our wines are suitable for our vegan and vegetarian customers. So please just ask.

Thank you for your custom.

Whether you are a regular over the past thirty years or today is your first visit, you are most welcome!

Salut!
The Last
